

# New Features

SchoolMessenger Communicate's 04.20.2019 release includes:

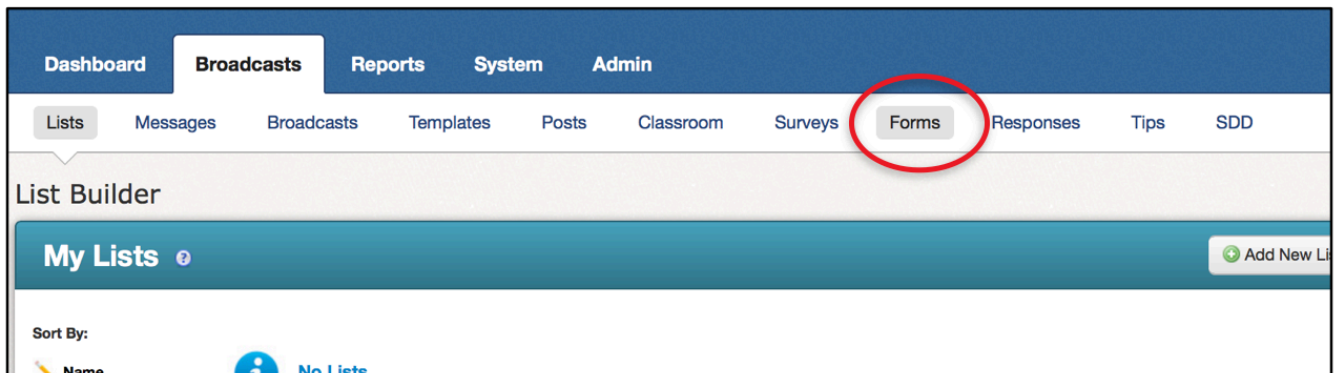

- **Forms:** Users can now create web surveys and send to their contacts.

## Forms

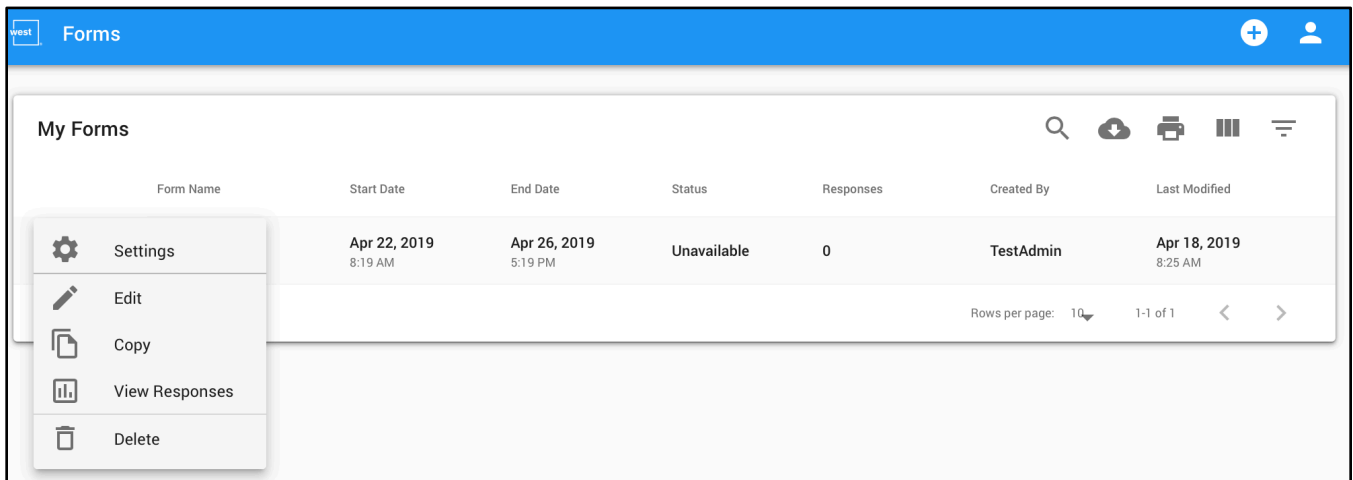

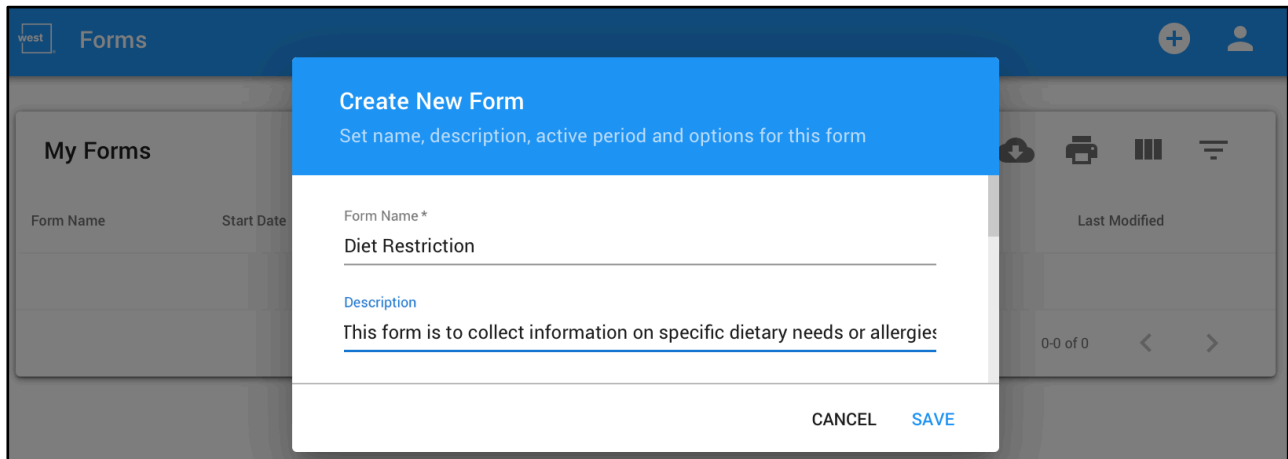

**Important:** This feature needs to be enabled and configured by customer support.

Forms allows users to be able to create and send web surveys to contacts.

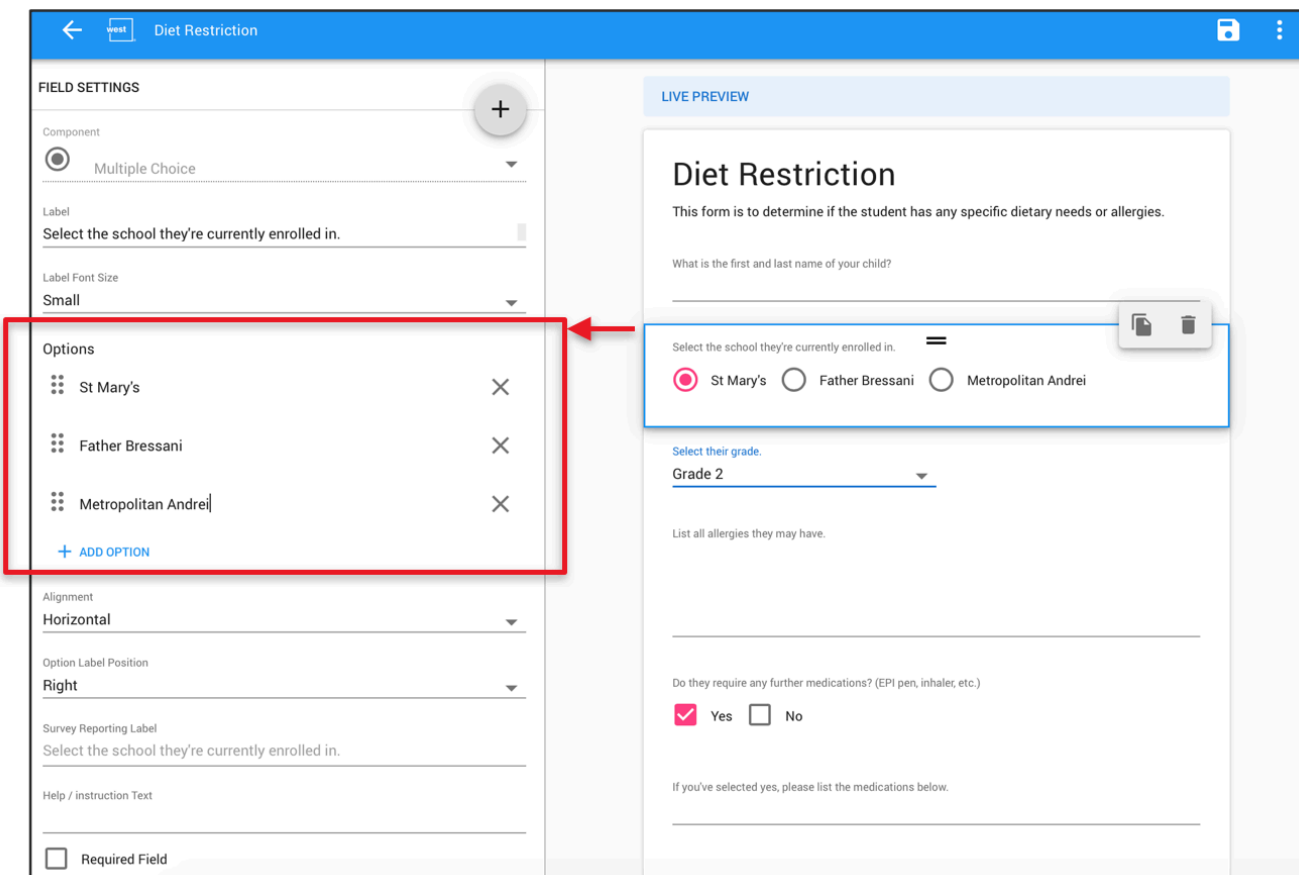

Users will be able to edit saved forms on a new My Forms page, from which they will also be able to view all responses.

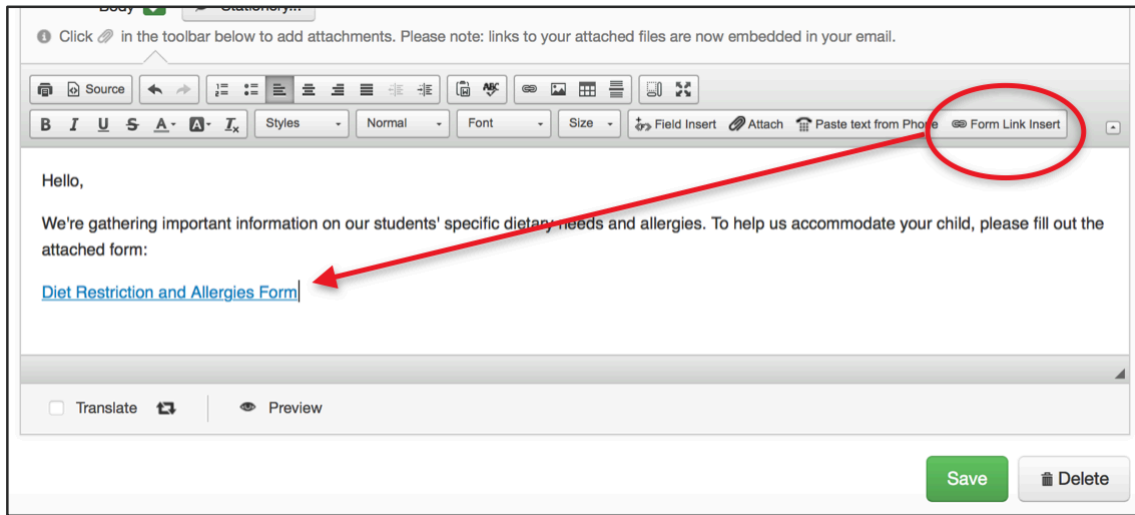

Quickly edit your form content through a simple and easy-to-use interface.

Easily send saved forms in emails and/or text broadcasts using Communicate’s Broadcast Sender.

Contacts who receive the form links will be directed to a survey on a forms webpage where they can answer the questions.

The screenshot shows a web form titled "Dietary Restriction". The form is set against a light blue header with "west" and "Forms" on the left, and "appleheart" on the right. The form content includes:
 

- Title:** Dietary Restriction
- Intro:** This form is to determine if the student has any specific dietary needs or allergies.
- Question:** Select the School your child is currently enrolled in.
- Options:** Three radio buttons for "St. Mary's" (selected), "Father Bressani", and "Metropolitan Andrei".
- Question:** Select what grade your child is in.
- Option:** A dropdown menu showing "Grade 2".
- Question:** List all the allergies your child has.
- Text:** "Peanut Butter, Cats, Pollen" entered in a text field.
- Question:** Do they require any medications or equipment? (e.g. epipen, inhaler)
- Options:** A checked "Yes" radio button and an unchecked "No" radio button.
- Text:** "If you selected 'Yes', please enter the medication and/or equipment in the space provided." followed by "Epi-pen" in a text field.
- Button:** A blue "SUBMIT" button at the bottom right.

Access form responses from the My Forms page and filter answers with ease.
