

Communicate Version 10.04.2019 -Release Notes

What's New

• New editor for creating newsletters: Create beautiful newsletters with ease using the new newsletters feature.

Newsletters Feature

Note: This is a feature that needs to be enabled by customer support.

The Newsletters feature was integrated into our Message Builder to make it easier for you to create beautiful emails quickly and easily. This feature does not replace the Stationery feature, but works as its own separate feature.

Bug Fixes

• FIXED: SM App users weren't able to see groups they were enrolled in.
