# Introduction

Depending on your account settings, Communicate’s translation feature allows you to translate English email, phone and text messages into over 100 languages. Use this list as a guide to let you know what languages are available for which message types.

 **Note:** In addition to your district’s account settings, translation availability will also depend on which communications platforms (Twilio or Syniverse) and short code your district is using.

# Translation Support List

 **Important:** SMS text messaging (a free feature) is not active by default on your SchoolMessenger Communicate account and requires special setup. Ensure you’re using the correct short code by checking with Support.

 = fully supported

 = not supported

 = partially supported

- **SMS:** Supported on short Codes 64779 and 67587. Not supported on short Codes 88544, 68453 and 724665.

 = partially supported

- Fully supported but characters may not render accurately.

### ***Why is the language I want on this list but isn't available when I try to translate my message in Communicate?***

This can happen for a number of reasons:

1. The language code wasn't included in your data import.
2. This language isn't enabled for your account.

Please reach out to our support teams to correct the issue.

# Questions?

If you have any questions, please contact your SchoolMessenger Project Manager or Customer Solutions Engineer prior to proceeding.
